Two Days on CCA

Friday, June 12 – Saturday, June 13, 2020

www.cca-2020.eu

**Abstract Deadline:
March 31, 2020**

DEAR COLLEAGUES

It is my great pleasure to invite you to the 3rd International Expert Meeting for the Treatment of Cholangiocarcinoma in Mainz, June 12 – 13, 2020.

The management of cholangiocarcinoma remains a major challenge. With the establishment of modern surgical, interventional and systemic treatment options over the last few years, the treatment of cholangiocarcinoma more than ever requires an interdisciplinary approach and open dialogue.

Therefore, the 3rd International Expert Meeting will bring together renowned specialists in the field of surgery, medical oncology, pathology, endoscopy, diagnostic and interventional radiology as well as radiotherapy.

The program 2020 comprises most relevant topics and critical issues on the diagnosis and management of intrahepatic, perihilar as well as distal cholangiocarcinoma: as observed in other cancer types, molecular profiling has started to gain increasing relevance in the treatment of advanced cholangiocarcinoma. Moreover, novel diagnostic approaches as well as tools for local therapy have been developed, which require particular attention.

Controversies on the optimal pre-operative work-up including biliary drainage, potential indications for neoadjuvant and adjuvant chemotherapy will be major topics.

Also, IgG4-associated cholangitis and Klatskin-mimicking lesions that are still highly difficult differential diagnoses and pose major therapeutic problems will be highlighted.

Finally, operative techniques, pitfalls in surgery and surgical strategies are presented focusing on vascular resection, the laparoscopic and robotic approach as well as ALPPS.

The Expert Meeting will be preceded by a Postgraduate Course "biliary".

Looking forward to welcoming you in Mainz!

Yours,

Professor Dr. med. Hauke Lang

CALL FOR ABSTRACTS

Topics

- molecular profiling
- local ablative therapy
- preoperative work-up including biliary drainage
- neoadjuvant and adjuvant therapy
- surgical techniques
- vascular resection and reconstruction
- laparoscopic and robotic approach
- miscellaneous

The scientific program will include

- invited presentations
- open paper discussions
- poster
- video presentations

CONGRESS PRESIDENT

Prof. Dr. med. Hauke Lang, MA, FACS

LOCAL ORGANIZING TEAM

PD Dr. med. Stefan Heinrich, Mainz

Dr. med. Fabian Bartsch, Mainz

Prof. Dr. med. Markus Möhler, Mainz

Prof. Dr. med. Jens U. Marquardt, Mainz/Lübeck

LOCATION

Kurfürstliches Schloss

Peter-Altmeier-Allee 9 | D-55116 Mainz

CONGRESS ORGANIZATION

Hagenauer Straße 53 | D-65203 Wiesbaden

Phone: +49 611 204809-267

Fax: +49 611 204809-10
